

12 September 1973

MEMORANDUM FOR: Chief, Information Requirements Staff, DDI

SUBJECT: Draft Report to PFIAB on Coordination of the US Foreign Intelligence Effort

1. Reference is our conversation of 11 September re the annual report to PFIAB I have been charged with drafting.

2. Attached is a rough first draft, on which other elements of the IC staff are now commenting. Pages 19-23 were written in the Program Evaluation Group and pages 24-34 in the Community Comptroller Group. I was not aware as to what those group inputs would be when I drafted the rest of the paper so there is a fair amount of duplication which will be eliminated when the second draft is prepared.

3. I would appreciate any comments you have as to additional topics which should be included or any now in the draft which should be deleted. I would be particularly interested in ideas concerning community coordination actions undertaken by CIA which are not mentioned in the attached draft.

4. As you might expect, I am under a time push on this, since we are to get a draft out for coordination next week.
